महोदय,

सविनय निवेदन है कि मेरा नाम राजकुमार बहरे है मैं पेशे से मजदूर हूँ। मेरी बेटी का नाम मेघा बहरे है जिसकी उम्र 4 वर्ष है।

कुछ समय पहले मेरी बेटी खेलते वक्त आग की चपेट में आ गयी जिससे उसका पेट, छाती तथा बायाँ पैर बुरी तरह जल गये हैं। जिसका इलाज "बर्न एण्ड ट्रामा रिसर्च सेन्टर" में चल रहा है। जिसके इलाज हेतु लगभग 5 लाख का खर्चा अधिकतम बताया गया है। मैं गरीब आदमी हूं। मेरी आर्थिक स्थिति बहुत ज्यादा खराब है।

अतः आपसे अनुरोध है कि मेरी बेटी के इलाज हेतु आर्थिक सहायता प्रदान करने की कृपा करें।
आपकी अति कृपा होगी

'UNNATII' (A Bihar Burn & Trauma Research Center Pvt. Ltd. Initiative)

**Ref. No.: FRR/0013/11/2016-17**
**Dated: 16.11.2016**

**Patient Name:** Baby Megha Kumari

**Sex:** Female **Age:** 4 Years

**Father's Name:** Sri Raj Kumar Lahre

**Address:** Village - Batri, P.O. Malhar, Bilaspur, Chhattisgarh, India

**Diagnosis:** Approx 30% TBSA Thermal Burn

**Date of Accident:** 12th November, 2016

**Date of Admission:** 16th November, 2016

**Overall Analysis:**

The patient - Baby Megha had been brought in to our Bilaspur Unit by her father - Sri Raj Kumar at 7 AM on the 16th November 2016.
The child sustained Thermal Burm Injury at a Brick Factory. The wounds have been found to be mostly 2nd & 3rd Degree Deep.
The burn injury on the front upper trunk is Deep and therefore a matter of concern. The fact that the back, hips & buttocks are safe, strongly favors the chance of survival. 'During the course of treatment we plan to follow a conservative approach and Surgical Skin Grafting procedures to close the wound post three weeks of wound care and management. Physiotherapy sessions would also be advised to achieve the best possible results and a contracture free recovery.
