विषय - बेटे के इलाज हेतु प्रार्थना

श्री मान्

सविनय निवेदन यह है कि मेरा नाम कल्लू रामपाल है मेरा निवास स्थान चकरभाठा कैम्प बिलासपुर है दिनांक 17-02-17 को मेरा बेटा जिसका नाम मयंक है, घर में प्रेशर कूकर के फटने के कारण जल गया। इसके इलाज के लिए मैं अपने बेटे को बिलासपुर बर्न एंड ट्रामा रिसर्च सेन्टर में ले गया था जहाँ उसके इलाज के लिये तीन लाख सत्तर हजार रुपये बताया गया है मैं यह खर्च उठाने मे असमर्थ हूँ अतः आपसे निवेदन है कि मेरे बेटे के इलाज के लिये सहायता प्रदान करने की कृपा करें।

आपकी अति कृपा होगी

बेटे का नाम - मयंक

उम्र - 7

पता - चकरभाठा कैम्प बिलासपुर

धन्यवाद

प्रार्थी

कल्लूरामपाल

PROFORMA INVOICE / FUND REQUISITION REPORT:

PROJECT UNNATII'

(A Bihar Burn & Trauma Research Center Pvt. Ltd. Initiative)

Patient Name: Master Mayank Kumar
Sex: Male **Age: 7** Years
Father's Name: Sri Ballu Ram Pal
Address: Chakarbhatha Camp Bilaspur
Diagnosis: Approx 28% TBSA Thermal Burn with Oro-Respiratory Inhalation Injury
Date of Accident: 17th February 2017
Date of Admission: 20th February 2017

Overall Analysis:

The patient - Master Mayank had been brought in to our Bilaspur Unit by his relatives and Father - Sri Ballu Ram Pal at 10 AM on the 20th of february 2017. The child sustained Thermal Burm Injury due blast of pressure cooker and its metaril spread out on his body in kitchen at home . He was standing near her mother who was making food for him at home and he got injured and mother also.Due to that incedent Master Mayank were all injured with mostly 2nd & 3rd Degree Deep burn injury with 28% thermal burn. He has however seriously injured his face,chest,hand and legs which is a matter of grave concern and is life threatening. During the course of treatment we plan to follow an intensive care approach, anticipating any possible respiratory distress. We will eventually employ Surgical Skin Grafting and other wound dressing and debridement procedures to close the wound as early as possible. Physiotherapy sessions would also be advised to achieve the best possible results against a possible respiratory collapse and a contracture free recovery.
