Introduction

AGWO was established in year 2007 to offer services for the children with impairments. Giggles means a smile, a smile make one's day; it brings us back to life, more so if it's a child giggle. As a private agency we provide special education as well as therapies to mentally and physically retarded children.

We are one of the front running NGOs in India and we are active in many fields. There is no dearth of problems in India. Poverty, lack of governance in critical areas, diseases, and inequalities brought about by centuries of discrimination and wrong practices are some of the problems that we encounter in India. Most of these problems can be mitigated or even wiped out completely if there is concentrated effort and partnership with citizens who wish to help.

Where We Are Heading

- ❖ Awareness about deadliest disease like HIV/AIDS, Cancer
- ❖ Facilitating free education to slum, poor and street children at primary and secondary level.
- ❖ Safeguard the environment at global level.
- ❖ Financial help to poor children for major surgeries at hospitals like AIIMS, Kalawati Saran etc.
- ❖ Effective bottom up strategies for ending up hunger and poverty.
- ❖ Designing and managing comprehensive prevention of disability at our rehabilitation center
- ❖ Empowering Women as a change.
- ❖ Distribution of free medicines, food and clothes in slums and rural areas.

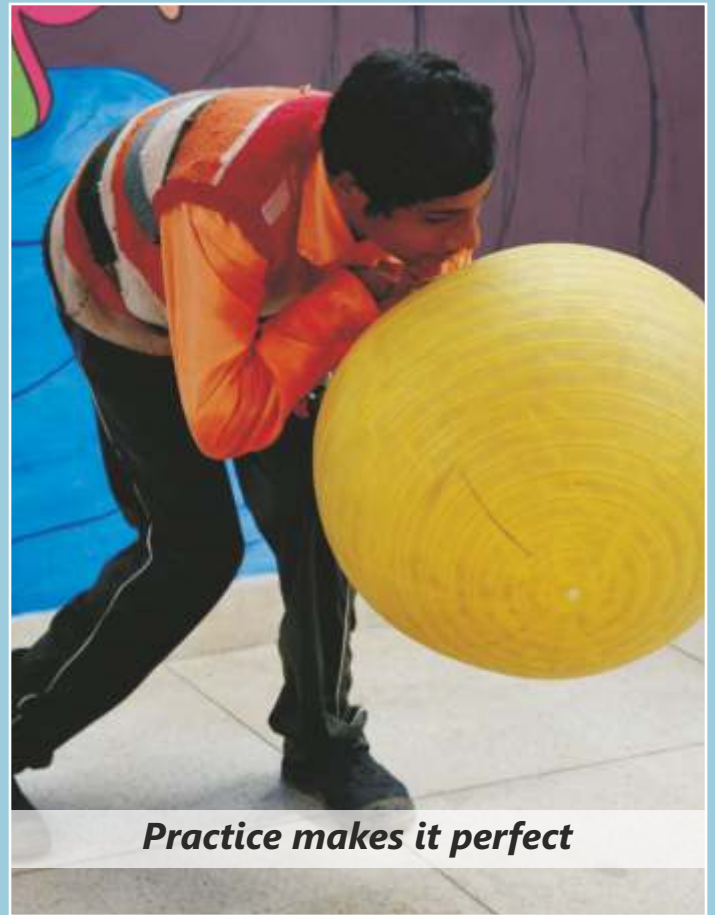

A Giggles Welfare Organisation

Turning Dreams
in to reality

We ourselves feel that what we are doing is just a drop in the ocean, but the ocean will be less because of that missing drop.

BIRTHDAY CELEBRATION

India Rehab Center

(A Project of A Giggles Welfare Organisation)

SHARING HAPPINESS

Happiness is something we end up chasing all our lives ever since the onset of birth. We are born & our new life is celebrated as our birthday year after year, celebrating the joy of growing up and being alive. Gradually over time, small milestones in life become significant to look back at the journey which makes us who we are. There are children who don't have a family and they need to be taken care of, they lack the relations, they too want to feel the events of joy which means so much. We here at our rehab center share small doses of such happiness & joy and light a small in these children's lives by spending a bit of our time, showing them what a birthday really means.

India Rehab Center

The walls have been painted with magical paintings of cartoons and environment to give a cheerful look to the mentally and physically retarded children.

As we unlock the doors of the class room of special education to mentally retarded children, the treasures of the differently abled mind are unveiled.

I and my family were very worried about him and I always need to take care of him, my life was much misbalanced due to this. We went to many doctors and hospitals, but we did not get any result after spending money like anything. One fine day one of my friend told me about India Rehab Centre and we came here with our son, the treatment got started here, 5 months have gone and we have seen magical results in Nikhil, Now Nikhil not only speaks, he studies as well.

A STORY OF CHANGE

Poverty and absence of any social security/medical insurance for the poor in India renders the rural poor extremely helpless in the face of life threatening diseases. Malnourishment makes them all the more vulnerable and inadequate health facilities in rural areas compounds their problem. Poor patients often succumb to life threatening diseases, if timely medical assistance is not provided.

It was a nice morning when Sachin came to this world, his parents were very happy when they knew that they have been blessed with a son. But they did not know that this happiness is for a very small time, the celebration of having a son was not even finished when they got to know that their son is having a hole in his heart. Shyam Babu and Kesh Kumari were very confused and frightened for how to go about it. Shyam Babu was working as a gardener for a family who were doctors in Lok Nayak Hospital and they advised to show him there, Sachin was of only two months when he was recognized with the life threatening disease TOF at the same hospital, as he was very small they did not allow for surgery, also they were not capable enough to go to a private hospital for treatment. Having financially very weak, he somehow started Ayurvedic Treatment for 2-3 years, but was not getting a positive result as Sachin was getting weak day by day and having problems in breathing, he could not play for a long time, he missed the fun of childhood. As Shyam Babu lack the guidance, he should have shown Sachin in AIIMS earlier, he showed Sachin in AIIMS when he was 7 years of age, being a Govt. Hospital he could not get a timely response, Fate did not give him togetherness to get his son treated timely to a private institution. For last 1 and half year he was moving around in AIIMS, and Sachin's condition was getting critical day by day. Somehow they got a response and doctors advised a heart surgery which will cost Rs.52000 and that can happen only in 2015 as they can't give time before that due to busyness of the hospital. Shyam Babu was now hopeless and disappointed as neither he could afford Rs.52000 nor he can wait for 3years for the surgery, one day he got to know about our organization from the house owner for whom he was working in Lajpat Nagar, we find the situation critical and for us Sachin didn't deserve to die due to his poor financial plight which he probably doesn't even understand. **A Giggles Welfare Organisation had provided Financial Aid of 52000** and talked to the hospital authorities at their level and the surgery got happened successfully.

Now Sachin can also play like a normal child, can enjoy every bit of his childhood, their parents can see the lovely **Giggle** back to their child's face, **what else we want- for us seeking happiness for others we find it for our self.**

Shyam Babu and Kesh Kumari are very grateful to A Giggles Welfare Organisation and now living their life happily in their small beautiful world.

**If you also want to make a difference to other's life,
come join hands...**

10,000 kids died in city hospital in last 5 years

New Delhi: NHRC will on Monday decide the course of action against Kalawati Saran Children's Hospital here after an RTI reply stated that over 10,000 children have died there in last five years.

"A complaint has been filed with the NHRC in this regard. The commission will take a decision on its next course of action on Monday," NHRC's joint registrar A K Parashar said.

The information was obtained by one Rajhans Bansal, a resident of Rohini, who filed an RTI application seeking details of the numbers of children who died in the government hospital in last five years. As per the RTI reply, 10,081 children have died in the Kalawati Saran hospital in last five years.
